

National Conference
on

Intellectual Property Rights
(IPR)

*“Building a Culture of
Innovation and Creativity”*

An initiative by

Jai Hind College (Autonomous) IQAC
Under the aegis of RUSA
December 10, 2019

Jai Hind College is hosting a National Conference on Intellectual Property Rights (IPR), “Building a Culture of Innovation and Creativity”, on December 10, 2019 at its campus in Mumbai.

About the College

Jai Hind College, established in 1948 by a small band of dedicated teachers of the D.J. Sind College Karachi, is one of the premier educational institutions in Mumbai. The vision of the College has been to provide world class education. The year 2018 has been a landmark year for Jai Hind College, as it received an Autonomous status from the Academic year 2018-19 onwards. It has always focussed on building academic excellence and in achieving holistic development of students through its various Undergraduate, Post Graduate, Diploma, Certificate and Value added courses. The college believes in fostering such policies and practices that build global competencies in students, shapes them into becoming informed, sensitive and caring individuals and promotes employability, entrepreneurship and life skills.

Theme of the Conference

Innovations or new inventions in technology and culture can leverage the progress and well-being of humanity and Intellectual Property Rights (IPR) is a key driver in fostering a culture of creativity and innovation around us. It is very crucial today to work towards greater awareness about recognising one’s own intellectual property and respecting those of the others. For academicians and practitioners in industry as well as for researchers, it is very relevant therefore, to understand the patent filing procedure, its enforcement and the challenges faced at the global level and in India. There is an urgent need to strike a balance between individual intellectual property and public interest today in all nations.

The Conference proposes to provide a forum for understanding various facets of Intellectual Property Rights (IPR), covering patents, copyright, trademark, industrial designs, geographical indications, traditional knowledge, their application procedure and the respective benefits and challenges faced. IPR is the gateway to foster greater creativity and innovation in all academic institutions ahead, which would strengthen the ecosystem related to it.

Objectives

- 1 To motivate faculty and research scholars towards greater innovation and research by building an awareness on the scope and relevance of IPR
- 2 To provide insights on the patent regime in India and the filing procedures for patents and copyrights in India
- 3 To disseminate information about copyrights, framework of protective rights of the creator and the purview of what can be copyrighted
- 4 To suggest pathways to build a culture of creativity, innovation and industry -academia collaborations towards Intellectual Property
