

NSS

Disaster management was one seminar students of NSS Unit Jai Hind College were looking forward to. Volunteers found the practical session really interesting, where he demonstrated different ways of handling injured people.

After the session, there was a lecture by an official from one of the Fire Station of Mumbai, Mr. S.D Sawant. He talked about different types of fire and how to control them. He technically explained the reasons of different forms of fire and how we should behave when this happens.

Next was a session by Dr. Pallavi . Her active and cheerful behavior got her everyone's full attention. She talked about different types of injuries and how to respond when they happen. Last was a lecture by Inspector of Mumbai Police. He gave a talk on different terrorist organizations and their recent attacks. He also talked about different types of bombs and how one should behave when there is an emergency.
