Course Title: Introductory Organic Chemistry I

I got to know about this course through the catalogue displayed on our notice board which had a huge list of courses. On asking the teacher, I got a suggestion for this course as it was intended for undergraduate students. The duration of this course was 8 weeks for which I think 20 AAA points are justified. The entire course including the exam was conducted online. As this course was online, I could study at my own comfort which made it easy for understanding each concept. Weekly assignments and tutorial videos were really helpful which made sure that the application of the concept is done. The lectures are really knowledgeable and any undergraduate student will enhance his/her understanding for further studies. I would thank the college administration for making the provision of AAA points which encouraged students to take up these courses. I look forward for continuing these courses for my studies and encourage other students to do the same.

Course Title: Cloud Computing

This course introduced various aspects of cloud computing, including fundamentals, management issues, security challenges and future research fields.

The criteria to get a certificate was 25% of the best of 6 out of 8 assignments and 75% of the proctored certification exam score out of 100. Duration of the course is 8 weeks. This course has greatly helped me add to my IT skills. I recommend this course to all those who are interested in increasing their knowledge in the field of Networking.

Course Title: Psychology of Everyday

Psychology of Everyday has been a truly invaluable learning experience for me as it gave me a good grounding in the basics. I have learnt so much from all the constructive input and guidance by the professors throughout each lesson of the course. Over the duration of the course I gained a lot of knowledge and practical strategies that will be beneficial to me. I highly recommend this course as the topics are related to the everyday behavior and mindset of the people. Also, the students taking up the courses available on SWAYAM platform are awarded AAA credits.

Course Title: Biomedical Nanotechnology

My course was based on Nanotechnology and the duration of course was 4 weeks. As Nanotechnology was a fascinating field for me and with the help of this course, I gained a good knowledge about it, and I have started thinking application based. It has given me a future prospectus in field of nanotechnology. I am getting 1 AAA credit point and I think that is enough for a 4-week course. If you are in Biotechnology and interested in applied research, this is an amazing field to be studied.

Course Title: Consumer Psychology

This was an 8-week course, with 8 assignments and a final exam. The instructor was a professor of IIT Guwahati. This was a simple course covering all the required topics under it. The support from our college during this period was great. All our doubts were cleared within minutes. The credit points given for the completion of SWAYAM courses is also justified as you need to spend months for its completion and you do gain a lot from it.

Course Title: Project Management

It was an eight weeks course. The structure of was course covers a lot of topics. At the start of the course the pace and information slowly builds up but, while progressing towards the end (specifically the last 3 weeks) there were a lot of new concepts introduced in a short span of time. The course was very informative and i learned a lot. However, an extended duration of the course would have helped to elaborate some topics more clearly.

Krish Nair

Course Title: Ethical Hacking

Ethical Hacking is a 12-week course conducted by National Programme on Technology Enhanced Learning (NPTEL). During the course, I learned about the network, which included how network is used and what type of addresses (IPv4 and IPv6) are there in the network and how network can be divided into subnetworks. Further I learned different ways on how to find vulnerabilities in the network using various tools like nmap and wireshark and operating system used as a tool like kali linux. I also learned how the hardware can be used as a hacking tool. Moreover, some demonstration sessions were there to do some practical testing on the network on the activities mentioned above.

College supported me on choosing the course since there were a lot of options available and I really thank my college for helping me choose this course.

AAA credit points for 4 week courses are 10, 8 week courses are 20 and 12 week courses are 30. Since Ethical Hacking is a 12 week course, the credit points earned are 30. For those who want to build their career in networking, I highly recommend them to take this course.

Course Title: Programming In Java

With the growth of information and communication technology, there is a need to develop large and complex software. That software should be platform-independent, easy to modify, secure and robust. To meet this requirement the object-oriented paradigm has been developed ie. Java Programming. This course aims to cover the essential topics of java programming such as overview of object-oriented, java elements, exception Handling, java applets and servlets, java abstract and swing and ODBC.

The criteria to get a certificate is: 25% of the best of 8 out of 12 assignments and 75% of the proctored certification exam score out of 100. Duration of the course is 12 weeks.

This course has greatly helped me add to my IT skills. I recommend this course to all those who are interested in increasing their knowledge in the field of programming.

Nishit Shah

Course Title: Ethical Hacking

Ethical Hacking was a 12-week course. The course began on July 29, 2019 and ended on October 18, 2019. Online exam was conducted on November 16, 2019. The course started with basic topics like networking and network security, and later various attacks were taught. There were hands-on demonstrations which proved helpful to me. Overall, the course was very informative. I am thankful to Prof. Wilson Rao, for inspiring me to take this course. According to me, 30 AAA points are adequate for a 12-week course. Lastly, I would recommend this course to my fellow classmates.
