

JAI HIND COLLEGE - AKRUTI KENDRA

Advanced Knowledge for Rural and Urban Technology Implementation
Deployment of DAE-BARC Technologies for Societal Benefit

- ❑ The **AKRUTI Programme** showcases the practical value of BARC technologies for rural and semi-urban communities, delivering **societal benefits at affordable costs**.
- ❑ The programme nurtures techno-preneurship, enabling ventures based on **200+ DAE-BARC technologies** and helps **create livelihoods within villages themselves**.

Now recognised as an official **AKRUTI Kendra, Jai Hind College**, Empowered Autonomous serves as a hub to encourage entrepreneurship among students, visitors, and skilled youth. The Kendra spreads awareness of available facilities and provides hands-on opportunities to observe, evaluate, and experiment with BARC technologies.

- ❑ For **budding entrepreneurs**, the Kendra becomes the first point of contact with DAE-BARC, guiding them in registering firms and applying for commercialization licenses to bring BARC technologies to market.
- ❑ We aim to **incubate ideas, mentor startups, and help innovators** turn research into reality. Whether you are a student, a working professional, or someone looking to begin a new venture, this is a space to learn, innovate, and grow.
